

# IICRC Water Restoration Technician

**CITB NI** is facilitating the delivery of a three-day IICRC Water Restoration Technician Training Course by The National Flood School <http://www.nationalfloodschool.co.uk/> and following completion of a 2 hour examination at the end of the course participants will gain an internationally recognised qualification.

## Who should attend:

The course is aimed at any party interested in the restoration of buildings following water intrusion of any kind. While the focus is on the process of drying buildings based on external flood water incidents and escapes of water from burst pipes, the issues of penetrative damp and rising damp are also discussed.

## The course is essential for:

- Emergency water damage restoration technicians
- Reconstruction contractors
- Building surveyors
- Loss adjusters
- Loss assessors

The course covers effective drying methodology, insurance related work, consumer issues and how to determine when a structure is actually dry enough for reconstruction and re-instatement to begin.

This illusive subject is often overlooked but is fundamental to successful drying. The course also covers the necessary basics needed to start attempting water damage claims. Participants will benefit from lectures, discussions and a short video as well as expert instruction.

**Course content includes:**

- Major causes of water damage
- Basic drying
- Psychrometry
- Latest equipment
- Safety
- Extraction procedures
- Structural drying
- Chemicals
- Sewage
- And more...

**Venue:** CITBNI, 17 Dundrod Road, Crumlin, Co Antrim BT29 4SR  
**Dates:** Tuesday, 22 August – Thursday, 24 August 2017  
(9am-5pm each day, participants need to arrive from 8:30am)  
**Cost:** In-scope registered employers\* **£225**  
Others **£450**

\*Please note as this course is already being subsidised by CITB NI, no additional grant aid is available.

Costs include exam and certification by the IICRC - Institute of Inspection Cleaning and Restoration Certification <https://www.iicrc.org/> and lunches. There is no pre-requisite to this course. Full attendance is required and an exam will be held on the last day and must be passed in order to achieve certification.
