MARCH

Date	Event	Description	Event/Booking Information
1			
2			
3	CISRS Scaffolding Part 2 Tube+Fitting	This 10 day course is for people who have spent a minimum of six months on-site since successfully completing the Scaffolding Part 1 course.	
4			
5	Care to Conserve: Caring for Historic Buildings	Join Foyle Civic Trust in partnership with CITB NI for a 1-day conference exploring approaches to building conservation. Get insights into how to care for historic buildings, including maintenance, repair and retrofit.	
6	Improving Thermal Performance of Older Buildings	This lunchtime webinar delivered by Ecological Building Systems will discuss approaches, materials and systems appropriate for solid walls and older properties.	
7			
8	Stained Glass Taster Day	This taster day will offer an introduction to stained glass, led by experienced artist Colette Langan. You will have the opportunity to try traditional techniques using the materials and tools provided to produce your own hand painted piece, and you will also be taught the tiffany method to create a suncatcher to take home.	
9			
10	2-Day Retrofit Course: Level 3 Award Energy Efficiency for Older Buildings	CITB NI are pleased to offer a subsidised 2-day online retrofit course resulting in a Level 3 Award in Energy Efficiency for Older and Traditional Buildings*. The course has been supported by Department for the Economy, and the course will offer the opportunity for construction professionals based in Northern Ireland to gain and formalise their knowledge in the retrofit of older and traditional buildings to achieve a recognised qualification.	
11			
12			
13	Decarbonised Domestic Heating Systems	This webinar, delivered by Andy Frew, Technical Innovation Manager at Northern Ireland Housing Executive, will discuss the opportunities, challenges and key considerations when specifying renewable and low carbon heating systems for domestic buildings, with particular reference to older buildings.	
14			
15			
16			
17			
18	CISRS Scaffolding CISRS Operative Training Scheme Course (COTS Course) WICN Site Visit Ballycastle Shared Education Campus	This 1 day course is for those wishing to become qualified Scaffolders or existing CISRS Scaffolding Labourer cardholders who need to complete the course once their current card expires, before being issued a new card, as part of CISRS scheme requirements. Agenda: 10.30am-11am: Registration and Coffee 11.00am: Site induction: Heron Site team 11.30am: Site Presentation: Paul McNamee Project Manager & Annie Crozier Site Engineer 12.00pm: Site Tour (Site walkaround works carried out to date) 12.45-1.30pm: Lunch and Networking	
19	2-Day Course: Level 3 Award Damp, Mould & Condensation in Buildings	CITB NI are pleased to offer a subsidised 2-day online course resulting in a Level 3 Award in Damp, Mould and Condensation in Buildings*. The course has been supported by Department for the Economy, and the course will offer the opportunity for construction professionals based in Northern Ireland to gain and formalise their knowledge in damp, mould and condensation. It will focus on the essential areas of knowledge required, plus taking learners through the overall process from pre-inspection and building inspection to reporting and specifying remedial work. Examples will include dwellings and other building types. At the end of the course, participants should have an understanding of the common causes of moisture problems in buildings, the approach to analysis, methods of investigation including the equipment to be used	
20	ISO50001 Energy Management System Awareness at CITB NI 9:15am-1pm Sash Window Maintenance & Repair	This course will provide delegates with an understanding of the requirements of the ISO series of standards and in particular ISO50001 Energy Management. The session will focus on providing delegates with the knowledge required to understand how these standards can be applied to their business and the key steps involved. This session will offer an overview of the sash window, its construction and mechanism, and appropriate materials and methods for maintenance and repair. You will then have the opportunity to put these materials and methods into practice. All materials and lunch, tea and coffee will be provided. No experience necessary!	
21			
22			
23			
24	CISRS Scaffolding CPD Refresher	This 2 day course is for the renewal of CISRS Scaffolder cards (blue) and CISRS Advanced card (gold) holders and is essential for ensuring scaffolding operatives keep up-to-date with best practice and changes in legislation.	
25			
26			
27	Dry Stone Walling: 1 Day Course	This taster day led by The Rock Stone Masonry, based in the grounds of Glenarm Castle, will provide an introduction to building without mortar, and participants will get to try their hand at repairing dry stone walls on a historic site. The Dry Stone Walling day does involve lifting and manual labour; however, you will not be expected to exceed what you are comfortable with. All materials and lunch will be provided. No experience necessary!	
28	Scaffolding employer engagement workshop	Your views on what's important to you/your business, industry training needs, careers and our CITB NI services are some of the topics we would like to hear from you about.
