17	Social Media for the Construction Industry Business Improvement Webinar 10:00-13:00	This interactive webinar session will give attendees a strong understanding of the latest changes in social media as well as the popularity of social media channels to help them find an exciting mix for their business. It will guide attendees through creating content and developing content calendars to streamline all posts and work in advance	
18	Traditional Paints & Finishes 13:00-14:00	Using appropriate paints and finishes on older buildings is vital to not only retain their character or historical significance, but also to keep buildings and building elements well maintained and performing as they were intended. This lunchtime webinar delivered by Ruth Bothwell of Decowell will offer an introduction to traditional paints, decorative finishes and their care and conservation using appropriate materials based on informed decisions.

15	Materials & Systems for Insulating Solid Masonry Walls 13:00-14:00	Retrofit measures such as applying insulation to older buildings can help us to increase energy efficiency and reduce running costs. However, it is important that appropriate materials and systems are used to keep buildings comfortable and safe for occupants. This lunchtime webinar delivered by Ecological Building Systems will introduce you to materials and systems appropriate for solid masonry walls and older properties. There will be an opportunity to ask questions in a Q&A at the end of the session.

22	Heritage Joinery Taster Day 10:00-14:45	This taster day will offer an introduction to heritage joinery, and you will have the opportunity to try traditional joinery techniques using hand tools provided. You will produce your own redwood miniature sheeted door, with mortise and tenon frame, to take home. All materials and lunch, tea and coffee will be provided. No experience necessary! This taster day is being held as a partnership between CITB NI and Department for Communities Historic Environment Division	
	Digital Construction Business Improvement Event at CITB NI 09:15-13:00	This course is aimed at small construction companies or those companies who are thinking about going digital. By leveraging the advantages of digital technologies, small businesses can achieve improved project outcomes, higher client satisfaction and long-term growth in the dynamic realm of construction.
