

BIMcert Focus Group / Reality Check Workshop

Belfast Metropolitan College — Titanic Quarter (TQ) Campus

7 Queens Rd, Belfast BT3 9DT

Date: Tuesday 13th November 2018

Time: 10:00am—12noon

Dear BIMcert followers and stakeholders

BIMcert concept development is underway, with the beginning of the 'Reality Check' BIMcert curriculum and training materials through webinars with Focus Group Members

Reality Check & Focus Group Workshops

The Workshop will be led by Future Analytics, who are in charge of trials, review and the testing process, and CITB NI, who aim to ensure the developed materials meet the varying needs of practitioners, in terms of size of the organisation, level of existing knowledge and aspiration to improve.

The workshop will entail direct discussion and interaction with the Project Team through Webinar.

Workshop will cover:

- Quick project overview and importance of BIM in sustainability and energy efficiency
- Industry survey identified current Skill gaps and needs and expectations
- BIMcert current thought: concept and methodology as strategic response to industry training needs

including:

- presentation of curriculum draft proposal
- preview of draft prototype training material, test and trial

showcasing our training approach for content such as:

- BIM impacts and requirement in specific roles
- BIM basics
- BIM key terms
- BIM processes
- Methods to self assess BIM readiness

Parking available at Belfast Met, TQ Campus
Refreshments available on arrival
