

Modern Techniques for Dealing with Contaminated Land

Are you aware of Invasive Weeds and their impact on the construction sector? Are you dealing with hazardous/non hazardous land? CITB NI have arranged four half day awareness raising sessions on invasive weeds and hazardous land to support the industry with this increasingly prevalent issue for the built environment and infrastructure sectors.

Key Topics Covered will include:

Invasive weeds

- Japanese Knotweed
- Himalayan Balsam
- Giant Hogweed

Soil Stabilisation

- Physical & Chemical Stabilisation
- E Clays
- Classification of Clays

Reclassification of Wastes & Screening

- Guidance on Waste Classification

Day 1: Thursday 5th March 2020

Morning session (09:30-12:30)

Afternoon session (13:30-16:30)

Day 2: Friday 6th March 2020

Morning session (09:30-12:30)

Afternoon session (13:30-16:30)

The sessions are free to CITB NI registered in-scope employers who meet the terms and conditions of the 2019/20 Grant Scheme.
