Health & Safety Blueprint

Health & Safety Blueprint

This poster is part of a range of publications that have been produced by CITB-ConstructionSkills NI to provide advice and guidance on Health and Safety issues relating to trade persons, managers and professionals working in the Construction Industry. These publications are designed with the aim of eliminating and reducing the risk of accidents, injury and ill-health.

This poster is intended only as a guide for developing a training programme of adequate health & safety for each of the construction occupations within your organisation. Companies are encouraged to provide additional training on Risk Assessment & Risk Management, Tool Box Talks and Induction Training as required.

We would encourage the use of our Training Directory of registered courses which has an estimated 4,000 courses in areas such as Health & Safety, Construction Trades and Business Skills (IT, accounts, and business studies) available at www.citbcsni.org.uk

For further information about Health & Safety Training and publications contact CITB at: 028 9082 5466 or alternatively visit www.citbcsni.org.uk
