

Leadership in Construction – Short Course Programme

As business leaders or those aspiring to that role, it is critical that you are given the opportunity to gain the knowledge and skills you need to effectively lead, develop and grow your business.

CITB NI has developed a short course programme which will help develop those skills.

If you are working in the construction industry and wish to further develop your leadership skills to improve your business then these courses are for you.

Organisational / Project Management Monday 6 November 2017 9.00am – 4.30pm

By the end of the course participants will be able to:-

- utilise project management techniques to shape and manage business development, innovation and the implementation of change
- implement skills to improve outcomes of projects which could lead to better customer satisfaction, risk management and reduce costs

Delivered by David McComb,
Full Circle Management Solutions

Leading Change for Growth 9.00am-4.30pm

NEW DATE ADDED –
Monday 15th January 2018

By the end of the course participants will be able to:-

- Implement proven techniques to successfully lead change within your organisation.

Delivered by David McComb,
Full Circle Management Solutions

Managing and Securing Financial Resources 9.00am – 4.30pm

NEW DATE ADDED –
Monday 5th March 2018

By the end of the course participants will be able to:-

- Know how to build an effective relationship with your financial institution
- Clearly understand management accounting for construction
- Evaluate various financial options including developing Joint Ventures
- Ensure you are making a profit and growing your business

Delivered by Ian Laverty,
Parity Professionals
