Training & up-skilling are key for the construction industry

CITB NI are focused on skills and training and we work with contractors, professional and trade bodies to support training initiatives and skills development for the overall benefit of the industry. We believe that the key to success is partnerships.

This approach helps us to identify future opportunities as well as manage the challenges that face our industry – together.

We constantly encourage our industry to continue to train and develop the skills of their workforce to help overcome challenges, learn more and be better and stronger.

Training

CITB NI Business Improvement Events are held throughout the year. Over 15 events led by industry experts, covering key topics like CSR Scheme Changes, Quality Control, Data Protection, Digital and social Media, and ISO4001 Environment Management Awareness. These events are short, informal, & easy to book. Sessions are a mix of face-to-face and webinar formats. Don't miss out! **Book Now** <https://bit.ly/3sQ13Kb>

CITB NI are also working in partnership with the Department for Communities Historic Environment Division, to deliver a new Heritage Project which will not only preserve, develop, and deliver heritage skills supply and training in Northern Ireland but will seek to unlock the potential of developing jobs and employment in the construction sector. It will also help raise awareness of our built heritage, the heritage skills required and promote the preservation and development of traditional crafts and skills.

As part of the project **CITB NI** will be running a series of training session specifically for heritage skills and development. **For further details and to book** bit.ly/3KbMtm4

This 3-year **CITB NI** heritage project is supported by the Covid Recovery Employment and Skills Initiative for Heritage funded by the Department for Communities and administered by the Heritage Fund. The project builds on work undertaken by heritage partners including the former NI Traditional Building Skills Working Group and the NI Heritage Skills Core and Reference Groups.
