

## PEOPLE-1ST

### NVQ Diploma in Construction Site Supervision

**CITB NI's Training in Partnership Funding is designed to directly fund training delivered to employers at little or no cost to encourage strategically important training or to improve performance of the industry in relation to future needs. The Training in Partnership Funding spans a wide range of needs and CITB NI have been recently working with training and employment provider People 1st to facilitate the Level 4 Diploma in Construction Site Supervision.**

The Level 4 NVQ in Construction Site Supervision provides construction employers the gateway for their employees to gain a level 4 qualification which is now necessary to achieve CSR gold card recognition. The course covers planning the work, managing work, people and resources. With interactive practical sessions it has been a very successful course.

So far, 30 candidates have successfully achieved the Level 4 NVQ Site Supervisor status which brings together both theory/practice in the workplace. Benefiting the employer and the candidate, supported by the positive feedback received to date.

People 1st have been delighted to work with CITB NI on this programme and look forward on working with them on other training initiatives in the future.
