

CITB NI Construction Ambassador Programme

The CITB NI Construction Ambassador programme is to help promote career opportunities within the construction industry and interact with potential new entrants.

Construction Ambassadors are a regional network of people who already work in the industry covering all trades and professions, who give a real-life perspective of the industry by visiting schools and attending careers events giving first-hand information on what it is like to work in construction.

Sharing positive experiences, a Construction Ambassador enhances the link between education and employment and can inspire, enthuse and inform potential new entrants and their key influencers about the built environment and the opportunities a career in construction may bring.

A Construction Ambassador can attend your school/college to:

- ▶ Deliver careers talks or presentations
- ▶ Participate at careers events
- ▶ Provide job sampling or activity days
- ▶ Participate in Interview days

If you would like a Construction Ambassador to attend your school or college email

Amanda.stevenson@citbni.org.uk with a brief overview of when, where and what it is you want them to participate in and we will do our best to accommodate the request.

Unfortunately, there is no guarantee that an Ambassador will be available to attend but we will try our best!

CITB NI can provide the Construction Ambassador with supporting careers information, careers publications and collateral for events.
